COOKING PROGRESSION

These recipes are designed to introduce leaders and girls to some of the techniques used when cooking outdoors. The recipes are only suggestions. Feel free to substitute your favorite recipes or alternate ingredients (e.g. turkey products for beef or pork). Some of the recipes utilize processed foods for convenience, but healthier alternatives such as fresh fruits and vegetables are always recommended when practical. Consider do-ahead preparations by the girls at a meeting or helpful parents for items like grated cheese, pre-cooked pasta, bacon or ground meats, or spaghetti sauce. Just about anything you can cook at home may be prepared in the out-of-doors with a bit of planning and as you troop's skills progress. The first four levels and some of level six are very doable for an "Indoor" setting, using stovetop, ovens, and convenience foods.

1. **No Cook**

Start teaching cooking skills including knife handling and hygiene. Whole meals may be planned around sandwiches or salads. Open, assemble, and eat with very little prep. Simple recipes may be tried at meetings. Take along in a sack for short hikes.

2. **Heat and Eat**

Boil water for tea, cocoa, and instant soup. Heat and eat items such as canned foods -- soups, stews, and chili -- cooks FAST!

3. **One Pot Meals**

A main dish that is cooked in one big pot, such as a stew, chili, or soup provides a tasty meal with a minimum of talent or clean-up. Supplement with a salad, drink, and dessert for an entire meal. Cook first for a patrol, then for the whole troop/group. Progressive cooking is on a kitchen stove, on a propane stove*, in a pot over charcoal*, or over a wood fire*.

4. **Foil Pouches or Ember* Cooking**

Use foil as an open skillet or seal and cook dinners with chicken or other meats in an oven, over charcoal* or wood fires*. Recipes in this group include cooking on grills*, in orange halves, and in foil pans over or near coals*.

5. **Stick Cooking****

Use dowels, other sticks or toasting forks, over charcoal and coals from wood fires.

6. **Griddle, Skillet, or Buddy Burner†**

Need to be careful with handling pans, hot grease, and hot foods to cook pancakes, French toast, bacon, quesadillas, etc. See [Can Cooking*](#) for instructions on making a Vagabond Stove and Buddy Burner, as well as recipes for cooking with cans.

7. **Dutch Oven***

Great food but time consuming. Well worth the effort. Look for the kind of Dutch oven with flat lid and a lip for hot coal placement on top described in [Dutch Oven Care](#).

8. **Box Oven***

Use a cardboard box that is covered with heavy duty foil; challenging, need time and patience. See [Box Oven Directions](#) for instructions on making and using a box oven.

** An adult must be trained at Outdoor Education Level 2 before leading the girls in these methods.

† Griddle and skillet cooking may be done indoors on a kitchen stove with Outdoor Education Level 1 training.

NO COOK RECIPES

No Cook recipes are a good place to start safe and sanitary kitchen habits. These provide a good beginning of measuring, mixing, and knife handling. Open, assemble, and eat with very little preparation. Whole meals may be planned around sandwiches or salads. Raw vegetables and/or fruits may be used for “walking salads” for a quick meal on a hike or an easy, no fuss meal on arrival at camp. Simple recipes may be tried at meetings.

SNACKS

(Ants) Bugs on a Log

Fill ribs of celery with peanut butter or cream cheese and top with raisins or nuts.

Breakfast Kabobs

Onto small wooden skewers, alternate cake (not glazed) donut holes and strawberries. Drizzle with a SMALL amount of chocolate ice cream topping or sprinkle with powdered sugar.

Brownie Smiles or Red Lips

Core and slice any red-skinned apple. Spread one side of each of two apple slices with peanut butter. Put a row of mini marshmallows between the two apple slices, using the peanut butter to hold the marshmallows in place. (the apple slices with the red peel are the lips and the marshmallows are the teeth of the “smile”).

Carrot Wheels

Dip slices of large carrots in peanut butter or cream cheese thinned with a little honey, or use as a dip.

Cereal Necklaces

½ c. cereal with holes

¼ c. mixed dried fruit (apricots, apples, pineapple, etc.)

Tie one piece of cereal onto one end of a 28 inch piece of cotton string or dental floss. Be careful. Don't break the cereal! Leave at least a 1" tail. Thread the string through a large needle. Thread the cereal and fruit onto the string in any design, making a long chain. When you have just an inch or two of string left, pull the needle off the thread and tie the ends of the string together. Wear the edible necklace, nibbling from the string when you are hungry for a snack.

Mini-burritos

Use round corn chips to assemble bite-sized burritos with grated cheese, sauce, chopped lettuce, etc.

Nose Bag Lunch

Nose Bag is a Girl Scout term for a lunch you can carry. (When a horse is to be away from his home quarters, a thoughtful owner provides a bag of feed to hang conveniently on his bridle!) You can carry your own personal “nose bag” in a bandana, plastic bag, etc. Try to provide a balanced meal – a protein sandwich, vegetable munchies, thirst quencher (fruit), and a dessert. Pack heavy things on the bottom, light ones on top. Avoid “squishy” things that will ooze and/or leak. If the lunch will travel a long bumpy distance, fragile fruits such as peaches and pears will not survive. Be aware of the weather and things that will melt. Potato chips tend to have a low survival rate!

Toothpick Kabobs

Use any combination of small cubes of cheese, cold meats, Vienna sausage, pickle, fruit. String on toothpicks.

DESSERTS

Banana Boats

Roll back and forth between two people about 10 minutes. Open outer can, empty water and ice. Pour off salt water where plant growth is undesirable as it will kill plants and can ruin plumbing. Rock 'n Roll Ice Cream: Mix in small can:
