# *Robots and More!* FAQs

---

## **What is *FIRST* LEGO League (FLL)?**

FLL is a global program created to get kids excited about science and technology. FLL utilizes theme-based challenges to engage kids in research, problem solving, and engineering.

## **Who can participate in the *Robots and More!* program?**

Junior, Cadette and Senior Girl Scouts (9 to 14 years old as of January 1, 2015) are eligible. Troops, individual Girl Scouts, and friends not currently Girl Scouts are encouraged to apply (girls must register as Girl Scouts to participate).

## **What is the cost?**

There is a \$375 team program fee for new teams, or \$200 for returning teams.

## **What is the benefit of participating on a Girl Scout team?**

GSGLA will provide support for you and your all-girl team throughout the season. We will provide your team with an EV3 robotics kit, a field kit, and additional robotics supplies, as well as pay your team's *FIRST* registration fee and one tournament fee (total value \$900; team savings of \$525).

## **Can I check out robotics before joining/starting a team?**

Yes! Try your hand at robotics during a *Robots and More! Sampler Workshop* in early June at the Montrose Program Center. More information available on the GSGLA Events Calendar online.

## **How do I apply for the *Robots and More!* program?**

Read the *2015-16 Robots and More! Info Sheet* online and download and submit a *Team* or *Individual Robotics Registration* form. The maximum number of members per team is 10 and the minimum is 3; we recommend at least 6.
