

Blended Simulation CPR/AED & First Aid Training

About the Training

What is Red Cross “Blended Simulation” Training?

This means that the learning is accomplished both online through an interactive online experience and in a hands on skills testing session.

The online experience allows you to respond to a series of real-world emergency response scenarios across a variety of settings. Once the online portion is completed, a face-to-face skills testing is done in the classroom on the date you registered for.

Official Red Cross certification is given once both portions are completed. The CPR/AED & First Aid certification is for Adult, Child, and Infant. This class satisfies the *Volunteer Essentials* guidelines of the minimum level of first aid required for access to Emergency Medical Services (EMS) that is less than 30 minutes response time.

The Blended Learning class is a Two Part Class:

Part 1 is your Online Session. Previous experience with online learning is preferred and a reliable computer with internet access is a must for this portion of the class.

Once you registered for this training through eBiz, please START your online skills session by accessing this link: <http://redcrosslearning.com/course/6d002c60-cf7c-11e5-8450-0d0cff7f5cef>

If you do not have an account with Red Cross, you will need to create one in order to access the online portion. Please make sure to remember your username and password so that you can access the course at any time. If you have any issues with your account or anything regarding the online portion, please contact 800-REDCROSS and/or support@redcrosstraining.org. Any progress you make on the online portion will save and you will be able to resume your learning at any time. **You will need to COMPLETE the Online Course prior to attending the skills session you registered for.**

Part 2 is the hands on, in person Skills Testing Session. The date and time listed upon registration through eBiz is the day of your physical skills testing session.

On the date of your in-person skills session, please provide a verification of completion for the online portion to the instructor in one of the following ways:

- Printing out the online completion record from the course and brings it to class (preferred method).
- You can show the email confirmation received upon completion of the online portion to the instructor (i.e. show on mobile phone or other device or via printed copy).
- Or, you can login to **your** account on your mobile phone to show your completion status that appears above the Launch Course button when you have completed the online portion.

If you have not completed the online portion or cannot provide verification, you cannot attend the class because you are unable to show proof of online course completion. If you need to cancel your skills session class, please contact training@girlscoutsla.org

The certificate of completion you receive for your online component is not your CPR/AED & First Aid Certificate. Once you have attended and completed the physical skills session, the official certification will be sent via email at a later date.

Questions about the Skills Session Portion? Contact Kay Chilson at kchilson@girlscoutsla.org or [\(626\)-677-2359](tel:626-677-2359)
