

## Property Planning Town Hall Meetings – Round 2

The first round of GSGLA Town Hall Meetings, held last month, had very low attendance (little more than 1% of the GSGLA membership); however, those that attended brought passion and feedback, and focused discussion on their favorite properties.

Every perspective needs a voice to help shape the property plan. Are you in an area that does not have a program center? If so, share your ideas, too. For those that have conflicts with the dates, share your opinions and ideas with those attending. Service Unit Managers, please consider meeting before the town hall meetings and send representatives with your members' viewpoints.
